- Ready to learn new technologies/Frameworks and implement them to further improve my knowledge.
- A team player with good communication skill always ready to work for the enrichment of knowledge.
- Has working knowledge on React Js and Java Microservice Development using Spring framework on a Beginner levels.
- Also Implemented Spring Boot in our case study.

## Achievement

### Asset Management System Application

Completed end to end case study of Online Food Delivery Application using Spring boot and React JS used for user interface. It is a double-role application project i.e., Admin and User, where Admin will have the main control over the system. Admin will be responsible for maintaining the system and, keeping a check on the availability of food, and updating the details in the nearby restaurants. On the other hand, Users can register themselves and can order online.
